

## LESS IS MORE

MorGreen™ coated fabrics are 100% free of chemical FR (Fire Retardant) additives.

Yet, thanks to their inherent flame-resistant properties, MorGreen™ products achieve the European Fire Norm EN1021 (Part 1&2).

Formulated without phthalates, the MorGreen™ FR-free range offers an alternative option, meeting the growing demand for eco-friendly solutions whilst still providing top performance qualities across a wide range of applications.

MorGreen™ defines Morbern's journey towards sustainability and the products that epitomize it – durable, responsible, with as little an impact on the environment as possible

## EvoHide™

75% sustainable product content

Bio-attributed PVC resins from non-feedstock wood residue such as bark, leaves etc

Bio-based plasticisers derived from used vegetable cooking oils (soya, sunflower etc)

100% recycled polyester backing fabric made from post-consumer PET bottles waste

The combination of these ISCC & RSB certified renewable ingredients makes for a 75% sustainable content vegan leather.
